## Horizon Power and Light, LLC

### April 2026 Pennsylvania Disclosure Label

Electric suppliers are required to provide customers with environmental disclosure labels. The label enables customers to look at the energy sources, air emissions, and information about the supplier’s company to make a more informed choice of a power supplier. Based on the most current data available at the time of filing, please see the environmental information for electricity offered by Horizon Power and Light, LLC below.

**Notes**

1. The PJM system mix represents all resources used for electricity generation in the region. Horizon Power and Light, LLC purchases power from the PJM system mix.
2. CO<sub>2</sub> is a “greenhouse gas” which may contribute to global climate change. SO<sub>2</sub> and NO<sub>x</sub> released into the atmosphere react to form acid rain. Nitrogen Oxides also react to form ground level ozone, an unhealthful component of “smog.”
